### Freelance Web/Multimedia Programmer

We are looking to expand our staff of web/multimedia programmers. The candidate will work with a team of instructional designers, multimedia designers, graphic artists, and technical writers to produce web-based courseware. The courseware will include interactions, games, simulations, quizzes, and exams, which require programming support. Must be capable of obtaining a Secret clearance.

#### Desired Skills & Experience

- 3 years of web development experience
- 3 years Javascript programming
- Experience using Web 2.0 Javascript libraries, such as jQuery
- Experience with courseware programming highly desired
- Understanding of 508 Standards and Compliance

#### Additional Information

Type: On Call, Contract

Experience: Mid-Senior Level

Functions: Programmer

Compensation: DOE
